

Since 2004, we have been proudly serving Texas as a certified and insured provider of Crime and Trauma Cleaning and Disinfection Services.

Our full range of services includes cleaning suicide, homicide and death scenes, in addition to disinfection against infectious and communicable diseases. When needed, we assist our clients as liasons with insurance companies and other service agencies.

We follow all state and federal guidelines for properly handling and disposing of infectious waste, transporting all materials in sealed containers to a licensed facility that handles hazardous materials.

Helping others while protecting the environment is always our top priority.

Service you can trust

No one should be faced with cleaning up following a traumatic event involving someone close. The mental anguish and stress could be as devastating as the event itself. AAA Scene Cleaners is proud to serve North Texas with compassion and respect. By choosing us, you will be protecting yourself from the mental stress and threats associated.

Being a firefighter for over 30 years, I have been involved with many families of tragic losses. These families needed a company they could trust to assist them in their time of need. That is why AAA Scene Cleaners is here to assist.

*Service with Compassion
is our Purpose*

Carriers of blood borne diseases may or may not be known. If these pathogens are not properly cleaned, the threat of exposure remains long after the evidence has been removed. Our personnel are well trained and protected to handle these situations.

WHAT PEOPLE ARE SAYING:

"AAA Scene Cleaners is truly a class act. Working with him has made our situation much more manageable — emotionally, physically, and logistically. 'Service with compassion' is not just a slogan for him, it is an ethic and a reality. He has been more than helpful at every turn, and that includes all of the red tape with the insurance company. God was definitely looking out for us when he led me to call AAA. I highly recommend him!"
